No changes can be made to the product after the final specification is approved, without consent of our QA department. This includes changes to fiber content, care instructions, country of origin, construction features, etc.

Shipments that vary from the approved product specifications can result in charge-backs to your company.

Please note: QA does not pay for fit or T.O.P. samples. These are considered a cost of doing business. Any invoices submitted will not be paid. Fit and T.O.P. samples are for QA purposes. They will not be returned and are not to be considered part of any production shipment.
